

Natural Gas Aggregation Program

Overview

Stark County Commissioners has established a lower fixed rate for natural gas members of the County's aggregation program with IGS during the months of November 2012 to October 2013. The program leverages the combined buying power of Canton homeowners to deliver lower cost natural gas.

Residents currently not participating in the program may call IGS toll free number 1-800-280-4474, to inquire about seeking enrollment. Fixed prices will provide predictability in cost of gas for individuals through the upcoming winter period. Residents and businesses currently in the IGS program do not need to do anything and will automatically receive this rate.

Anyone wishing to join the program will need to call IGS 800-280-4474 or go online www.igsenergy.com and enter their respective promo codes:
